Address: Surendranagar, Gujarat, India

CAREER OBJECTIVE

Motivated and detail-oriented Computer Applications graduate with a strong foundation in software development and backend technologies. Currently specializing in Python Backend Development to build scalable, efficient, and secure web applications. Proficient in core programming languages including Python, Java, C, and C++, along with foundational web and database technologies. Possesses strong problem-solving abilities, logical thinking, and a drive to continuous learning.

EDUCATION DETAILS

- **Professional course in Python Backend Development**
[Tops Technologies | Ongoing](#)
- **Bachelor of Science in Information Technology (B.Sc. IT)**
[C. U. Shah University, Wadhwan, Gujarat](#)
- **Higher Secondary Certificate (HSC - 12th GSEB Board)**
[Gujarat Secondary and Higher Secondary Education Board](#)
- **Secondary School Certificate (SSC - 10th GSEB Board)**
[Gujarat Secondary and Higher Secondary Education Board](#)

SKILLS

Technical Skill: Python, SQL, C, C++, Java, HTML, CSS, JavaScript, Flutter, Dart

Soft Skill: Problem-Solving, Team Collaboration, Time Management, Adaptability, Logical Thinking

Languages: English, Hindi, Gujarati

PROJECTS

Vehicle Service & Maintenance Tracker – Mobile Application

- Designed and developed a cross-platform mobile application using Flutter and Dart to track vehicle maintenance schedules, expense records, and service alerts.
- Implemented backend database management using SQL / SQLite to securely store and process vehicle logs, mileage, and maintenance history.
- Built dynamic UI components and user navigation using HTML/CSS & Flutter widgets to ensure a smooth administrative workflow and intuitive user portal.
- Structured modular backend code and local storage logic following object-oriented programming principles for high scalability.

Academic Record & Task Platform

- Developed a central management platform designed to streamline task allocation, user verification, and visual publication of progress metrics.
- Implemented backend database management using SQL to securely store and process student/employee records and performance logs.
- Built dynamic user components using JavaScript, HTML, and CSS to ensure a smooth administrative workflow and intuitive user portal.

EXPERIENCE & INTERNSHIPS

- **Fresher** : Ready to leverage academic background and practical course training in an entry-level role.
- **Flutter Developer Intern / IT Trainee**
Mobile & Software Academy | Dec-2025 – March-2026
 - Gained hands-on practical training in Flutter, Dart, Python backend basics, HTML, CSS, JavaScript.
 - Developed core technical skills in responsive UI design, debugging, and database connectivity.
 - Collaborated on real-time app modules to build scalable, efficient, and user-friendly software solutions.

CERTIFICATION

- Python Backend Development & Software Engineering Certification
- Flutter & Cross-Platform Mobile Development Certificate

INTERESTS

Coding & Logic Building, Learning New Technologies, Watching Movies, Listening to Music.
